Assignment 1: Intro

Part 1 (100 points): Describe your favorite WebGL demo. My favorite WebGL demo is named as "Electric Flower" created by Henrik Rydgård. It shows electrical waves making patterns and changing colors. It has three different varieties named as Glow, Blur, Radial Blur. Glow adds more light to the formations. Blur makes the graphics blurry and fade. Radial Blur gives a soft texture to the graphics and makes it blurry.

My favorite demo is Electric Flower (<https://webglsamples.org/electricflower/electricflower.html>). The graphic shows the different glowing patterns.

Technologies used: Could not find the technology used in the console section of the inspect.
